

Patient

42-year-old healthy male with deep second-degree contact burn to left calf

Presentation

- Length: 4.5 cm; width: 2.75 cm

Treatment history

- 33 days of self treatment

Treatment

Day 0

- Wound covered with OASIS[®] Burn Matrix
- Outer dressing included ADAPTIC[™], ALLEVYN[™], Hypafix[®], Coban[™], and a hydrogel

Day 3

- OASIS reapplied
- Clean outer dressings reapplied

Day 6

- Wound examined and moistened with saline
- Clean outer dressings reapplied

Results

Wound completely closed following 10 days of OASIS treatment. At 4.5 months, patient was noted to have excellent functional and cosmetic outcome.
